Hello Dr. Rimaletta,

Thank you for your purchase of the Online Marketing Bundle. As part of the bundle, you receive a book review which is copied below:

## **Book Review of Self-Renaissance**

In Self-Renaissance, Dr. Rimaletta Ray illustrates the paradigm of self-creation and teaches readers how to live a full and purposeful life. Dr. Ray systematically introduces the five phases of achieving Self-Renaissance: self-awareness, self-monitoring, self-installation, self-realization, and finally self-salvation. In accordance with the current technological era, Dr. Ray also links digital concepts with elements of Self-Renaissance, coining unique terms such as Personal Wi-Fi, auto-suggestive programming, and digitally spiritualized life energy. To help readers focus on important concepts, the book includes coloured titles and keywords and is sprinkled with quotes from powerful businessmen and inventors such as Jeff Bezos, Nikola Tesla and Elon Musk. Overall, the prose is highly engaging, and with proper understanding and adherence to the advice given, it is sure to have a significant impact on the readers and their emotional and physical well-being. – Review by the Book Excellence Awards
